UFA

UNIVERSITY
of the FIRST AGE

Why UFA? If your school, cluster group, local authority or community organisation is looking to raise achievement and develop teaching and learning approaches to raising standards or to increase the range of adults that can support your young people to learn, the UFA can help.

The UFA provides all the support, training, resources and expertise you need to make a measurable impact on school improvement, standards and community regeneration through a strategic approach. In addition to raising achievement and standards UFA partner organisations also report improved relationships with parents and support agencies.

Menu of services - pick and mix

We have organised our services and support into three themes: **Training for Adults**, **Young People's Activities** and **Young People's Leadership and Participation in Learning**. Within the themes we can train adults to deliver UFA programmes, we can deliver programmes to young people with your staff or we can directly deliver the programmes to young people and parents. Once you have experienced the programmes you might want to be part of a train the trainer programme which licenses you and provides the resources to deliver the training programmes in your area.

To provide value for money and simplicity all our one day (non training the trainer) courses for adults are priced at £135 per person*, per day and include resources, training the trainer programmes on the other hand are £200pp. You do not have to be a Partnership to purchase activities, but you will need to purchase brand registration if you wish to deliver these as UFA branded activities.

TRAINING FOR ADULTS: raising standards & capacity

The UFA works with teachers and support staff in schools or those who support young people in different settings such as youth workers, outdoor centres, museum and library staff and parents and carers.

Courses can be delivered for multi agency or specific groups.
